9 November 1966

MEMORANDUM FOR THE RECORD

Morning Meeting of 9 November 1966

DD/I tabled two memoranda on [ ] prepared by ORR which he plans to distribute to the working level at State.

25X1

DD/I noted that the McCloy trilateral meetings will resume today to define areas of disagreement, such as the precise nature of the threat. DDCI noted that the trilateral meetings will provide a basis for determining NATO force levels. The Director said that he had read [ ] paper on European problems and sent it to State.

25X1

Godfrey called attention to news articles from Peking by Toronto Globe reporter Oancia and said that, until intelligence is available, OCI will treat the Chinese internal situation in memoranda only. The Director agreed that the Agency should not rush into print on this subject. DDCI called attention to the scheduled visit to Washington of [ ]

25X1

Godfrey noted a State cable from Conakry and reported information which suggests that a transcript of a book on intelligence by Roger Hilsman is presently in Washington.

[ ] announced that the question of moving [ ] is no longer an issue. He noted that the Agency now has in hand [ ] details of the large NRO budget. In reply to a question from the Director, DD/I said that the paper on the NRO schedule will be completed by COB today.

25X1

Sheldon discussed the advisability of covering the Arab-Israeli situation in the Watch Committee report. (See Action 1)

DD/S reported that the exterior lighting which was put out of commission yesterday by a trenching machine will be repaired by this evening.

Carver reported on yesterday's working session on pacification criteria, and the Director reviewed with him the various departmental positions in anticipation of the meeting of principals this afternoon.

Warner reminded that Senator Tydings will be at Headquarters this afternoon and said that he will draw up a guest list for the luncheon for Senator Saltonstall next Wednesday.

A-DD/S&T noted a letter from ACDA to the Secretary of Defense on the possibility of reclassifying information concerning the U. S. seismic station network. D/OSI is following this.

A-DD/S&T reported that the U. S. Government will complain to the USSR on the venting of the last test at Novaya Zemlya. He saw no difficulty with an AEC request to provide [redacted] time and location of the last Chinese test. The Director agreed.

25X1

A-DD/S&T noted that the CORONA package from yesterday's launch is working. He called attention to a Newsweek "Periscope" item on a U. S. secret radar located to scan the Chinese test area.

The Director noted that Bill Darden and Bill Woodruff were briefed at Headquarters yesterday and that he had suggested to them that they visit NPIC. DD/I said that this visit is already scheduled.

The Director raised the subject of a briefing for Gene Rostow. Kent said that he will extend this invitation for lunch and the afternoon at Headquarters. The Director thought that RFE and Radio Liberty should be included on the agenda.

The Director noted that [redacted] is preparing another fever chart on Latin America and said that he has also asked him for a detailed "arms race" study.
